TOGETHER AGAINST POLLUTION

GREEN

HERO

THE FIGHT MUST CONTINUE

BY FFNK
Pollution in this city is really a dangerous issue, and no body seems to worry about it. In fact, the them it seems to be a non-issue.

Air pollution due to the burning of bushes and fires is a common practice where I come from. I learned to expect non-smog but still no one even thought ones nondt.

The same water which will be broken to our houses for consumption and resulting in water born diseases.

More to that the common practice which should be thrown into the trash can was not respected. Instead of being thrown into the trash can, they were thrown into the soiled or by the corner.

This habit is very bad and I knew it had disastrous effects on many lives.

Gades

Tredd can

Pollution of water bodies that lead to death of aquatic species and contamination of water.
Today I am new in a school and firmly decided to get rid of pollution anywhere I go.

Pollution have always being a broad case in what concerned environmental hygiene in schools of my city and the whole city in general still the day.

Come in and prayer your self.

Good mor.

My name is Nzegele Henry Toviah, and I'm happy to be here with you.

Ooh thank glad to be.

Ooh sit here.

Thank you Sir.

Go and get a sit.

Come sit here.
THIS IS WHAT MADE ME SPEED UP MY ACTION

SUDDEN SITUATION DURING BREAK

BECAUSE I CAN'T SEE HERE.

THIS JUICE WAS REFRESHING.

WHAT ARE YOU DOING? I SAW YOU FISHING.

NOTHING, JUST PASS THE TIME.
Pick that up!

Leave from here.

I won't live till you pick.

Whoop that.

No! Leave him! Let him go!

Tell me where is the principal's office.

I told you! Be back for trouble!

It was just not the good moment.

What do you want to do there?

Order! Follow me!

Just show me the way.
Madame, I wish to start an environmental club.

We have a health club that I think is doing it's work well.

THANK YOU MADAME

The results of my work will start being visible by tomorrow morning.

One thing to take about all you should ask them in this school have against the optimum level, we need to change.

Yes, I will give the required documents immediately.

NEXT MORNING

We are launching a new club, which we have to do within approaching the environment if you are... I am interested.

Interested, take the tickets and we will see in the multimedia hall.

Nonsense!

Yes, thank for your help.

EVERYTHING LOOKS AS PLANNED

SET YOU ON THE MISSION

YES WE WILL MEET THERE.
At around 10:30 AM in the Multimedia Hall, all youth willing to fight for the environment was present and they were lectured on how to do that.

Good morning everyone,

I hope every body sitting here today are those ready to fight for our environment.

Yeah! We are ready.

We will have to take a firm action in our school first, then expand to other schools and institutions. We will do create awareness by reporting the dangers of pollution to the environment and our health. Firstly, I propose we show the importance of proper uses and sides of chemicals before to our junior and senior friends.

This will only be possible if we work together for the common interest of our environment.

How will we do that?

This will be done by counselling the students on what they have to do followed by encouraging them to encourage others any where they see them at fault.

If there is no other question I just want to see every body getting to work.

Thank you, everybody.
After two months of intensive work, the rate of pollution had greatly reduced in the school due to the action of the newly created clubs and they looked forward to expanding their action in the nearby schools and institutions and the city as a whole.

Due to these actions is what happens today.

FROM THE SMALLEST THINGS

Throwing unnatural sewage in the era

A kid, don't play around here. It's dangerous.

Stop polluting the area.

You, I am from one of the从前 periods, leave me. My colleague and I, what you just did is wrong.

You just killed many aquatic lives.

Go home. You have nothing to do here.

I said go and never come back here.

But sir, what you are doing is bad.
THE ACTION OF JOHNS GAVE POWER TO HIS NAME AND IN HIS SCHOOL HE WAS TITLED THE GREEN HERO AND HAD TO WORK HARDER AND HARDER.

DURING AN ASSEMBLY OF CLUB MEMBERS

GOOD MORNING TO YOU ALL MR. JONES AND ALL OF OUR MEMBERS.

I WISH TO CONGRATULATE YOU ALL FOR YOUR HARD WORK. POLLUTION IN OUR SCHOOL IS A PITY OR A PITY STORY AND I HOPE IT WILL THE SAME FOR THE FUTURE YEARS TO COME.

YES! WHAT DO YOU WANT TO SAY?

PLEASE! PLEASE!

YES! WE DID WORK, MR. JONES. IT IS SLOW BUT IT IS NOW ENOUGH.

WE DID IT! IT IS SLOW BUT SLOWLY YESTERDAY I SAW WORKERS FROM THE SCHOOL OF THEIR WASTE MATERIAL IN THE SEA.

I THINK WE CAN SAY MORE A主題 TO THE PRINCIPAL THE COMPANY THEY WANTED THE MEETING TO OVER.

ANY WAY I WILL SAY MORE TAKE CARE OF THIS.

MAYBE WE HAVE SEEN DAMS WORKED THROWING WASTE PRODUCTS IN THE SEA AND I ONE TO CALL THE MANAGER AND SPEAK TO HIM ABOUT HOW HIS EMPLOYEES ARE DOING.

OH YES! YOU CAN'T AND YOU CAN'T EXPLAIN HOW YOU CAN TAKE AING TO THE ENVIRONMENT.

THANK YOU FOR LETTING ME.
Good afternoon Sir. I want to talk to you about the way your company borrows the public's money.

How does that concern you today? This is business and going any further on this side of the street will cost me my job. I am sure I can do anything for you.

The next morning

What do you think about public money? Is it time for example a farm worker?

On that side of the street, my money can't save our competition.

I point out Sunday. Not only the members of your club but the whole school and others who joined the initiative.

All you're responsible for is minimizing money for the welfare of all.

No to pollution of our waters.

No to pollution of all its forms.

We youths say no to pollution in all its forms.

But yes, to the restoration of our natural environment...
JOHNS IN HIS ACTIONS VALUED THE ENVIRONMENT MORE THAN ALL AND EMPOWERED THE YOUTH TO FIGHT FOR THIS COMMON GOAL. LIKE HIM, WE CAN MAINTAIN OUR ENVIRONMENT CLEAN, FREE FROM POLLUTION JUST BY SHOWING TO OTHERS THE NEGATIVE IMPACTS OF POLLUTION TO OUR ENVIRONMENT AND OUR HEALTH. FIGHTING TOGETHER AS YOUTH FOR THIS COMMON GOAL WILL JUST MAKE OUR ACTIONS GO FURTHER AND OUR GOALS TO BE ACHIEVED SOONER.

IF WE DO CARE FOR THE ENVIRONMENT AND OUR HEALTH THEN LET US MAKE THE FIGHT AGAINST POLLUTION ONE OF THE MAJOR MISSIONS OF OUR LIFE.
