very soon. I'll be there soon. We're just few kilometres. Don't worry.

Hello, how i'm doing.

Okay.

Welcome back! Nice to see you back.

Thanks, mum. Me too.

I'm back finally.
Morning, can I help you sleep well?

Okay, Mom.

Hmmm, what will I empty this trash?

Just go to the last house in the row, and see if the bin there.

Thank you, sir.
What nonsense! What are these villagers doing? Why are they mistreating the river and its resources? Let me go downstream and see what's happening.

They're swimming!

This must stop. The environment is depending on us. This is a high misuse of water. Mother must hear of this and I must do something.

They're also drinking!
Mother must know of this and I'll propose to her to tell this to the chief.

Mum! I went to flush dirt and I saw other people throwing dirt in the river. Why is it so?

But it is incorrect. We have to tell the chief this. It is wrong, it is destroying the river.

That is the normal area for dumping of dirt here.

OK son.

I hope the chief is present and he accepts my request.
Greeting my King, we hereby request permission to let us have a meeting with the villagers.

Announce to all the villagers to assemble at the village council hall tomorrow at noon. Everyone must be present.

Attention! Attention! Attention! Everyone is expected to be at the village council hall tomorrow at noon.

Oh, your highness.

Oh, your highness.

Oh, your highness.

Oh, your highness.
I would like to propose my name is Mary. I would like to propose this idea of building a park in our village. It’s highly correlated with the future generation, which will be affected in the future if not regulated. This park will be a good place to enjoy nature and relax.

The village council should also enjoy the protection of the trees, plants, and flowers. It will also help to avoid diseases in the future and also avoid the destruction of our water bodies.
Nothing I will like to thank you for serving your community. Thanks for bringing out the aspect of water pollution and the effects on us. I pray God continues to guide you as you carry on your activities in life. Come and give me a handshake my son.

I am proud of you my son, your people will forever be grateful for these things you have reminded us about.

THE END
